Customer Reviews

This is a horrible book. There are only 3 practice tests instead of 4, which is a huge mistake on their part, especially when 4 is on the front cover. Also, plenty of the questions have faulty answers, and there are numerous typos in the book. For instance, on question 28, they completely messed up the question by putting a ; instead of a ,, which would change the answer. I also get the feeling that these questions are inadequately written. The practice areas are also incomplete and not very helpful. In fact, some of their tips are actually things that I would avoid doing on a test like this. I do not recommend buying this book.

The reading section is so helpful for me as a teacher but the writing section is too limited and doesn't cover all rules and tricks needed to crack the questions.

Great Book with Great Info. Only downfall is that it states there is 4 full length tests and there is only 3.

The reading comprehension questions and explanations are a joke.

Princeton review's books are soooooooooo helpful - I'm a Junior in High school and these were great. :)

Bought for someone else, but the Feedback is ok
